Are you at risk for Colorectal Cancer?

Your risk increases if you have:

- A personal or family history of colon polyps
- Had colorectal cancer before
- Inflammatory bowel disease (IBD) like ulcerative colitis or Crohn’s disease
- A 1st degree relative (parent, sibling, or child) with colorectal cancer

2nd leading cause of cancer deaths in men
3rd leading cause of cancer deaths in women

You may be eligible for a screening at no cost to you!

Eligibility

✓ Age 50-75, and/or have an increased risk
✓ Resident of Wicomico County
✓ Meet income requirements
✓ Uninsured
✓ Underinsured (may qualify for co-pay assistance and/or navigation services)
